

Week ending: 14.01.2022

Classes	Name	Reason
FCC	Ema	Ema has had a wonderful week. She has settled into her new phonics group amazingly well and Mrs Smithson has mentioned how fantastic she been. We are super impressed with her attitude towards school and learning.
	Jigsaw learner: Harriet	Harriet is a very mature member of our class and always thinks about our Jigsaw learning. She has enjoyed this week talking about challenges!
FQC	James	James really has had a super week- in fact he has been super since we came back to school after Christmas! He has learnt (and is using) so many of his key words and he really is trying his very best at everything. Keep up the amazing attitude and great work! Well done James.
1AW	Max	Max has done some amazing maths in school this week. We have been learning how to use 10 frames, adding, number bonds to 10 and subtraction and Max has really worked hard at this and understands what he need to do.
	Jigsaw Alistair	We have been learning about goals and dreams in Jigsaw this week and our task was to make a Jam Sandwich in 4 easy steps to achieve our goal. Alistair gave very good instructions to achieve his goal.
1GC	Bobby	We have started on some new maths learning this half term and Bobby has taken on board the new strategies we are learning and focusing really well on this. We have been looking at 10 frames this week and he has taken to this really well.
	Jigsaw Joey	In Jigsaw we have been looking at goals and dreams. Joey has taken part in discussions really well and shared his dreams and goals with the class.
2HC	Oliver	Oliver has completed some fantastic learning this week. One particular piece was some English where he was asked to explain what certain words mean. Oliver tried his hardest with this piece and not only did he achieve the learning outcome, it was presented so beautifully too! Well done Oliver, your attitude to learning is great.
	Isaac	

		With a little encouragement Isaac has challenged himself in maths this week and I knew he could do it! He moved onto *** learning in maths and certainly stayed motivated whilst doing this.
2MA	Jack	For putting lots of effort into every piece of work that he has done this week. I am particularly pleased with how well he tackled a 'challenge' question in maths and how often he is putting his hands up to offer answers and ideas. Well done Jack.
	Jigsaw - Bertie	Bertie is this week's Jigsaw learner for always staying motivated and positive even when things get challenging. Even when Bertie makes a mistake or needs to correct something in his work, he keeps a smile on his face and continues to try his best. This is a super quality to have Bertie, well done!
3SH	Ava W	Ava is an always child. She puts maximum effort levels into everything that we do in class. She is also getting much more confident with putting her hand up and answering questions in class. Well done, Ava!
	Amelia-Rose	Amelia is this week's Jigsaw learner. In our PE this week, she injured herself but after sitting out for a while, she joined straight back in and did a great job. She has also been doing a fantastic job with her reading and her perseverance is really something to be admired. Great job, Amelia-Rose!
3RM	Tilly	I have been impressed with Tilly's approach to her learning this week. Her hand has been up more, and she has been putting in super effort to her work. Give it up Tilly!
	Jigsaw – whole class	This week the class has been learning how to divide. We had several conversations about being stuck in a learning pit and how we were going to get ourselves out. All children have displayed resilience and together we are getting there.
4LP	Pennie	I have put Pennie in Gold Book this week for her lovely English and topic writing. Her work is beautifully presented. Her punctuation excellent and she has worked hard to sort her ideas into clear, organised paragraphs.
4NM	Logan and Reabie	These are our two new children, who have settled into our class really well and quickly with no fuss at all. It is like they have already been with us for ages! Well done for joining us so smoothly and thanks to the class for supporting their transition!
	Gracie	Gracie is our Jigsaw friend – she is kind and supportive of others and the teacher without being asked or prompted, and is always there ready to help. A gentle, quiet treasure in our class.

5DP	Sennan	Sennan's enthusiasm throughout every area of the curriculum is outstanding. He blows our mind with all of the facts that he knows and how much he remembers from our lessons. He is bursting with knowledge and I look forward to learning something new from him every day of the week. He has especially impressed me in science and history this week where he challenged himself and aimed for the stars! Well done Sennan, I feel so lucky to have you as part of my team.
5NW	Lily Jigsaw Friend: Evie	For her consistency, presentation and taking pride in all her work. For her dreams and aspirations to bring kindness to sick children.
6WW	Thomas Lily	Thomas has worked really hard on his mathematics. He is careful in his calculation work, and I have been impressed with his scores. Lily has thought carefully about her goals for the future and the steps that she needs to take.
6SE	Emily Lucy	Emily has worked so hard on her maths this week. She hasn't given up when things got tricky but has asked for help and has asked for more practice. I am so proud of her maturity and her drive to succeed. You've got this Emily. Lucy has been a great friend to her partner in Guided Reading and helped her through some mistakes that she had made or helped her to understand what the question had asked. Thank you Lucy.
	Lunch time stars this week	Sam, Lucy, Emily Chloe Luke C, Eleanor Oliver.C, Joel, Luke R,
